

Symposium ICA Spring Olomouc 2023

April 3-5, 2023

ATLASES: THEIR DESIGN AND USE

The objectives of the symposium are as follow:

- to explore current issues and themes in the theory and practice of three ICA commissions -
 - atlases, map design, and user studies,
- to exchange professional experiences and discuss problems arising from merging approaches of the commissions' domains,
- to expose cartographers to current developments in atlases, their design and use.
